

公眾填料接收設施

Public Fill Reception Facilities

沒有妥善運載液體物料的樣本

Samples of Improper Carrying of Liquid Materials

液體物料（如泥漿及膨潤土） -
高含水量（出現流動水分）會增加於運載途中溢濺的風險

Liquid materials (e.g. slurry and bentonite) -
with high moisture content (containing free water) increase the risk of spillage during transport
