Notes:

- In supporting the application, please provide relevant information as required under paragraph 3 of Appendix C of DEVB TCW No. 6/2010.
- Project Offices (for public works projects) or Authorized Persons (for private development projects) shall submit applications using the standard project registration form to the Secretary of Public Fill Committee (PFC)** **at least 2 weeks in advance** for the collection of public fill. In case for recycling, the recyclers shall be on the list of recyclers for construction and demolition materials as recognized by EPD. The updated list is posted at the EPD waste reduction website – <https://www.wastereduction.gov.hk/en-hk/looking-listed-construction-and-demolition-materials-recyclers-public-works/list-recyclers>
- The Secretary of PFC approves application (with validity period and quantity). Maximum daily quantity of public fill for collection may be specified depending on the prevailing conditions at public fill reception facilities (PFRFs).
- For non-public works projects, the applicants are required to settle the associated material handling cost at PFRFs (including government administrative cost) for the supply of public fill before collection.
- For public works projects, the project offices shall assess and deduct any cost saving under their contracts for the supply of public fill at PFRFs.
