

**Construction Standard
Testing Concrete**

Volume 1

Amendment sheet no. 1102 : June 1996

The following amendments are made to CS 1:1990, Volume 1 :

1. Appendix A, Clause A5, p.35 : replace the clause by

The tamping rod shall be a (16 ± 1) mm diameter straight steel bar, (600 ± 5) mm long with both ends hemispherical.

2. Appendix A, Clause A9, p.35 : replace the clause by

The compacting bar shall be a steel bar at least 380 mm long, weighing (1.8 ± 0.1) kg and having a ramming face (25.0 ± 0.5) mm square.
