

## **FOREWORD**

In May 2005, the Working Group for Reviewing and Updating the Project Administration Handbook for Civil Engineering Works (PAH) with members comprising representatives from CEDD, DSD, HyD and WSD decided that PAH should be comprehensively reviewed every two years. All nine chapters of PAH were then completely reviewed with the 2006 Edition launched on the CEDD website in June 2006.

The comprehensive review of the 2018 Edition, which commenced in March 2020, led to the production of the 2020 Edition. This new edition has taken into account all amendments issued since the first launching of the 2018 Edition and the relevant requirements promulgated by the bureaus/departments mainly up to September 2020.

CEDD would like to thank the members of the Working Group for the great contribution in completing the comprehensive review of the nine chapters of PAH.

The electronic files of PAH including amendments hereafter, if any, can be found on the website of the Civil Engineering and Development Department.

October 2020
