

葵青 Kwai Tsing

# Blue Breeze and Green Vista 嵐海菁喬

青衣，一個動感的綠色島嶼；葵涌，一個熱情的多元社區。嵐海菁喬這一主題將葵青區恬靜的山林景色，遼闊的海峽風情以及充滿朝氣的社區氣氛透過大葉杜英、大花紫薇和宮粉羊蹄甲等品種烘托出來，營造一個大氣而多姿多彩的綠色居住環境。

The Greening Theme for Kwai Tsing District is 'Blue Breeze, Green Vista' (嵐海菁喬) reflecting the dynamism and vitality of Tsing Yi, and the diversity and liveliness of Kwai Chung, set either side of Rambler Channel with the hills of Tsing Yi and Kam Shan and Shing Mun Country Parks as backdrops. Potential representative tree and shrub species include *Elaeocarpus balansae* (大葉杜英) with its upright columnar form suited to the limited urban spaces, along with the showy spring and summer floral displays of *Lagerstroemia speciosa* (大花紫薇) and *Bauhinia variegata* (宮粉洋蹄甲). *Elaeocarpus balansae* (大葉杜英) and *Bauhinia variegata* (宮粉洋蹄甲) are common to Kwai Tsing and Tsuen Wan Districts in order to avoid artificially emphasising their boundary which runs straight through what is a contiguous urban area.
