

萬彩千香

Fragrant Blossom Paths

西貢市及鄰近地區有「香港的後花園」之稱，將軍澳北為新發展的居住區，南面有工業設施。「萬彩千香」旨為西貢區建立悠閒、環保和百花齊放新型城市的形象。建議以有花或芳香的植物為主題品種，例如大葉杜英和各種含笑屬的樹種（白蘭、樂昌含笑及深山含笑等），綠化西貢區，營造一個舒適的居住環境。

The greening theme “Fragrant Blossom Paths” reflects the relaxing atmosphere of Sai Kung Town and its surrounding environment, known as the “Leisure Garden of Hong Kong”; as well as the sustainable, dynamic urban character of Tseung Kwan O, comprising mainly newly developed residential areas to the north and industrial estates to the south. The use of fragrant, flowering species, such as (*Elaeocarpus balansae* and *Michelia* spp (*Michelia x alba*, *Michelia chapensis*, *Michelia maudiae*), in the greening theme is designed to enhance greening and create quality living environment in Sai Kung District.
